

The AZEK® Company Unveils New Outdoor Living Products from TimberTech®
Latest offerings help homeowners create on-trend, low-maintenance outdoor-living spaces

Chicago, Ill., Nov. 10, 2021 – TimberTech, one of the world’s leading brands for beautiful, sustainable, premium decking and outdoor-living products, announces a new lineup of products, available January 2022. The offerings include two on-trend composite deck-board colors, French White Oak® and Dark Cocoa, and a hidden fastener system to reduce installation time.

“As demand for outdoor living spaces increases, homeowners continue to request design-forward decks that reflect their personal style,” Jesse Singh, CEO of The AZEK Company, said. “These new product extensions enable us to build on our commitment to deliver beautiful, sustainable, and low maintenance decking – while providing more options to meet the latest home-design trends.”

TimberTech and AZEK distributor, dealer and contractor partners had the opportunity to preview the new products in-person during meetings held last week in conjunction with the 2021 TimberTech Championship – a PGA TOUR Champions tournament – in Boca Raton, Florida.

French White Oak, a TimberTech AZEK® Landmark Collection™ Extension

The Landmark Collection – part of the TimberTech high performance capped polymer decking line – uses innovative technology to mimic the look of natural, reclaimed wood without harming the environment. New to the collection is French White Oak, a unique, light-tone board with subtly blended shades of natural oak, warm gray, and tannin. Softer tones have become a sought-after trend in indoor flooring, and French White Oak seamlessly extends those trends to the outdoor living space.

Like all TimberTech products, sustainability is at the new product’s core. The Landmark Collection recently won the Vinyl Sustainability Council’s inaugural *Design for Reuse* award because the product itself is made from approximately 50% recycled material and is recyclable at the end of its useful life, upwards of 50 years after installation.

The Landmark Collection currently includes two colors, Castle Gate™ and American Walnut™, which feature a natural woodgrain surface texture, complemented by unique crosscuts, as well as highlights and lowlights that represent the color variations found in nature.

TimberTech EDGE® Prime+ Collection® Extension

The EDGE Prime+ Collection is an attainable, composite decking line made from up to 80% recycled materials. Dark Cocoa, the newest color, boasts a warm brown shade, flecked with varied hues that give natural color dimension while also staying true to TimberTech’s low maintenance and high-performance features.

EDGELOC™ Deck Fastener Systems

EDGELOC is a Hidden Fastener System for TimberTech EDGE® Grooved Deck Boards. Efficient and aesthetically pleasing, EDGELOC is easy to use, reduces installation time, and results in a smooth, fastener-free finished surface.

All products will be available early 2022. For more information about TimberTech, visit [TimberTech.com](https://www.timbertech.com), and for more information on The AZEK Company and its full product portfolio, visit [azekco.com](https://www.azekco.com).

About The AZEK Company

The AZEK Company Inc. (NYSE: AZEK) is the industry-leading designer and manufacturer of beautiful, low maintenance and environmentally sustainable outdoor living products, including TimberTech® decking and Versatex® and AZEK Trim®. Consistently recognized as the market leader in innovation, quality and aesthetics, products across AZEK's portfolio are made from up to 100% recycled material and primarily replace wood on the outside of homes, providing a long-lasting, eco-friendly, and stylish solution to consumers. Leveraging the talents of approximately 1,700 employees and the strength of relationships across its value chain, The AZEK Company is committed to accelerating the use of recycled material in the manufacturing of its innovative products, keeping millions of pounds of waste out of landfills each year, and revolutionizing the industry to create a more sustainable future. Headquartered in Chicago, Illinois, the company operates manufacturing facilities in Ohio, Pennsylvania and Minnesota, and recently announced a new facility will open in Boise, Idaho. Cautionary Note Regarding Forward-Looking Statements

This release contains or refers to certain forward-looking statements within the meaning of the federal securities laws and subject to the "safe harbor" protections thereunder. Forward-looking statements are statements about future events and are based on our current expectations. These forward-looking statements may be identified by the words "believe," "hope," "expect," "intend," "will," "target," "anticipate," "goal" and similar expressions. Our forward-looking statements include, without limitation, statements with respect to our ability to meet the future targets and goals we establish and the ultimate impact of our actions on our business as well as the expected benefits to the environment, our employees, the communities in which we do business or otherwise. The Company bases its forward-looking statements on information available to it on the date of this release, and undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of changed circumstances, new information, future events or otherwise, except as may otherwise be required by law. Actual future events could also differ materially due to numerous factors that involve substantial known and unknown risks and uncertainties including, among other things, the risks and uncertainties set forth under "Risk Factors" and elsewhere in the Company's reports on Form 10-K and Form 10-Q and the other risks and uncertainties discussed in any subsequent reports that the Company files with the Securities and Exchange Commission from time to time. Although we have attempted to identify those material factors that could cause actual results or events to differ from those described in such forward-looking statements, there may be other factors that could cause actual results or events to differ from those anticipated, estimated or intended. Given these uncertainties, investors are cautioned not to place undue reliance on our forward-looking statements.
